

DAILY DOSE OF DAX

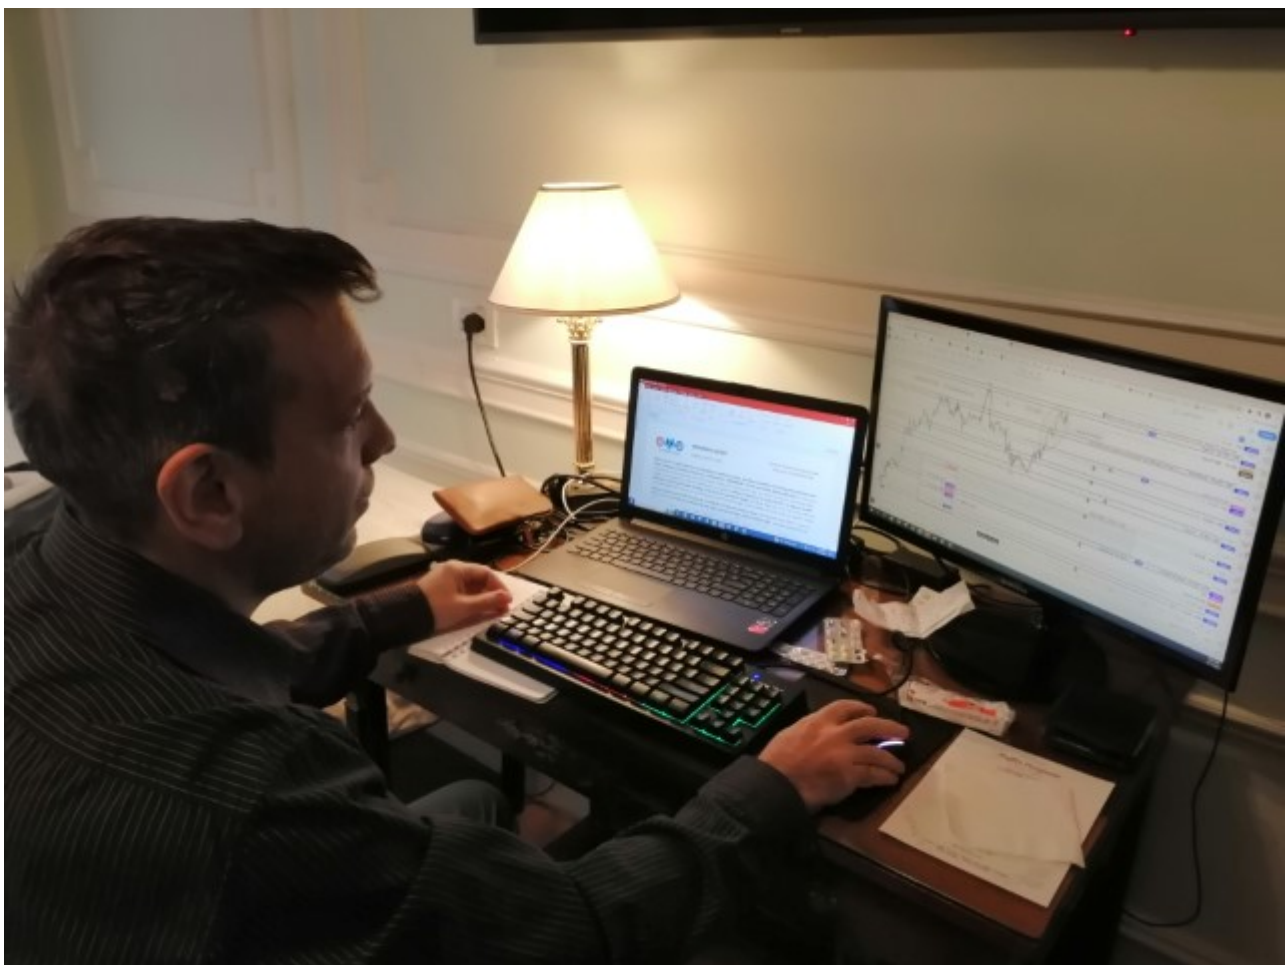

VACATION INFO for August 3 - 13, 2025

I am traveling on Sunday, August 3rd, and will be on vacation for 10 days - up to Wednesday, Aug 13th. That period covers 8 trading days. **During that time, DAILY DOSE OF DAX Service WILL WORK,** with some usual vacation changes: *No Recap videos in that period, just a few tweets per day, Setups Gallery will be made with less detail, no Weekend Updates. Answering email questions will likely be in the evenings.* Flight time - in case of delays - COULD influence the last day of vacation - Aug 13th. IF I think that there will be no time to make usual Morning prep, I will make sure to make something else - like Evening prep.

Email Update #1, MORNING NOTES and CHARTS - as the core products of this Service - will of course be there every trading day.

To be able to provide usual size / resolution charts, besides a laptop, I always carry additional monitor. This one was in Spain, Italy, Greece, Montenegro, Turkey, Serbian mountains and rivers...

Usually working like this (photo from the hotel room in Rome, on Easter 2023).
